

## Updates from the City Manager.

The *City of Sapulpa* approved a 15-year extension on an existing sales tax for roads and bridges in 2014, extending the tax until 2029. Several major roads were identified in this extension including Bryan, Cobb, North and South Hickory, and Canyon Road. In addition, a multitude of smaller sections of road were mapped and identified to be repaired over the 15-year period. The following map shows the roads completed in yellow; major street projects in green while pre-determined residential streets are in red. Both Canyon Road and North Hickory currently have bids out and due back Dec 16, 2019. Street crews continue to work on remaining streets.
